devrajsingh3213@gmail.com

Noida Sec. 37, India

ABOUT ME

Full Stack App Developer with 5+ years of experience in building scalable mobile and web applications using Flutter, Node.js, and React.

Specialized in real-time applications including chat systems, WebRTC-based calling, and marketplace platforms. Strong expertise in REST APIs, Firebase, WebSockets, and SQLite.

Passionate about creating high-performance, user-friendly applications and solving real-world problems with clean and maintainable code.

EDUCATION

MASTER OF COMPUTER APPLICATIONS (MCA)

Chandigarh University, Mohali

2022-2024

BACHELOR OF COMPUTER APPLICATIONS (BCA)

Teerthanker Mahaveer University, Moradabad

2017-2020

HIGH SCHOOL & INTERMEDIATE

Teerthanker Mahaveer University, Moradabad

2016-2017

TECHNICAL SKILLS

Frontend:

- Flutter, Dart, React.js

Mobile:

- Android (Java, Kotlin)

Tools & Technologies:

- REST APIs, WebSockets, WebRTC, Firebase, Postman

Backend:

- Node.js, Express.js

Database:

- SQLite, Firebase Firestore

Other:

- Bootstrap, Tailwind CSS, JavaScript

WORK EXPERIENCE

Mobile Application Developer (Java, Kotlin, Dart) Bizupon Pvt.Ltd.

06/2025-NOW

Bizupon Co. Ltd. is an innovative automotive technology company specializing in digital vehicle auctions and global trading solutions, connecting buyers and sellers through a secure, scalable, and user-centric platform.

- Developed real-time chat and marketplace features using Flutter and WebSockets
- Implemented push notifications using Firebase Cloud Messaging (FCM)
- Built scalable and high-performance mobile applications

Full Stack Developer (Node.js, Express, Android) DigitalDiscom Pvt. Ltd

01/2025-03/2025

DigitalDiscom Pvt. Ltd. is a technology-driven energy solutions company focused on modernizing the power and utilities sector. It delivers digital platforms and smart energy management systems that enhance operational efficiency, customer engagement, and utility performance through innovative, scalable, and data-driven solutions

- Developed RESTful APIs using Node.js and Express.js
- Implemented real-time communication using WebSockets
- Built cross-platform mobile apps using Flutter, Java, and Kotlin

Mobile Application Developer (Java, Kotlin, Dart) IOTtech Smart Products

06/2023–01/2025

IOTtech Smart Products Pvt. Ltd. is a technology-focused company specializing in smart IoT solutions and enterprise-grade mobile applications. The organization develops innovative, connected systems and digital platforms that enhance automation, real-time monitoring, and operational efficiency across diverse industry sectors.

- Developed IoT-based mobile applications with real-time data
- Integrated third-party APIs and optimized backend performance
- Built scalable backend services using Node.js
- Integrated Firebase services (Authentication, Firestore)
- Developed cross-platform mobile applications using Java, Kotlin, and Flutter

Android Developer IOTtech Softwares

09/2021–06/2023

IOTtech Softwares is a technology-driven company specializing in the development of mobile applications and customized software solutions. The organization delivers scalable, user-centric digital products designed to enhance business efficiency, streamline operations, and support digital transformation across various industries.

- Developed mobile applications using Java, Kotlin, and Firebase
- Implemented authentication and real-time database features
- Improved app performance and UI/UX
- Collaborated with cross-functional teams to develop scalable applications
- Worked on backend services in PHP for mobile app integrations

PROJECTS

Bizupon App

Bizupon is a digital automotive marketplace and auction platform that connects buyers and sellers globally. The app enables vehicle listings, real-time bidding, secure transactions, and integrated chat features, ensuring a seamless and efficient trading experience.

- Integrated and developed RESTful APIs for seamless data communication
- Real-Time Chat & Marketplace App
- Implementing real-time communication using WebSockets and Firebase Cloud Messaging (FCM)
- Integrating Firebase services including Authentication, Firestore, and Push Notifications
- Implemented media sharing (GIF, Video)

UrjaOne Platform (Client & Vendor Applications)

Developed a dual-module mobile application consisting of Client and Vendor apps to streamline electricity service management and vendor operations.

- Integrated and developed RESTful APIs for seamless data communication
- Implemented Firebase services for authentication, notifications, and real-time updates
- Managed database architecture and backend data handling
- Enabled users to manage electricity bills, service requests, and complaints
- Built vendor-side features for handling customer requests, service tracking, and operational management

TaxinQ App

A law and tax-related application that helps users search new and old laws

- Integrated and developed RESTful APIs for seamless data communication
- Implemented Firebase services for authentication, notifications, and real-time updates
- Frontend development, API integration, Firebase notifications

Rank2top App

Rank2Top is an educational mobile application designed to help students prepare for exams through structured study materials, practice tests, and performance tracking. The app focuses on providing a smooth, user-friendly learning experience with scalable and efficient functionality.

- Integrated and developed RESTful APIs for seamless data communication
- Implemented Firebase services for authentication, notifications, and real-time updates
- Frontend development, API integration, Firebase notifications

IOTech HRM App

A human resource management system for tracking employee performance and leave management

- Integrated and developed RESTful APIs for seamless data communication
- Implemented Firebase services for authentication, notifications, and real-time updates
- Frontend development, API integration, Firebase notifications

OfficeAssists App

An office productivity tool for task management and internal communication

- Integrated and developed RESTful APIs for seamless data communication
- Implemented Firebase services for authentication, notifications, and real-time updates
- Frontend development, API integration, Firebase notifications

IoTechChat App

A real-time chat application for IoT-based customer support and team collaboration

- Integrated and developed RESTful APIs for seamless data communication
- Implemented Firebase services for authentication, notifications, and real-time updates
- Frontend development, API integration, Firebase notifications
